FLY FISHING

NEW ITEMS  
2022

We give a rating for the carbon that is used in each of our graphite rods. The higher the number the higher the modulus of the carbon that is used for the rod. The rating is closely related to the tonnage of the carbon in each of the rods. However this is not the whole truth as we use different carbon mixtures to achieve the wanted rod action and also the resins differ from model to model. But this rating is an indication of the main carbon used in the blank. Our premium rods use graphene in the resin and rods are identified by the Graphene logo.

### XO GRAPHENE

The next level of XO fly rods. We wanted to bring out the new generation of XO rods only if we could make significant improvements on the materials. Graphene made this possible. 3 years of testing prototypes and actions lead to the launch of XO Graphene fly rods. With this new material available and with it being the strongest tested material in the world it required a lot of testing and tuning of action. When one of these rods is cast for the first time the difference is noticeable right away. Graphene makes it possible to make stronger rods with less material which results actionwise in unbelievable strength combined with smooth action.

The long #3 weight rods are made especially for Euro nymphing. They feature a down-locking reel seat for better balance, tight spacing of small single leg guides to prevent line sagging for perfect drag free drifts and our tangle free tip with the top guide being double leg snake guide. These 2 models are designed together with some of the best competition anglers in the world.

The 9' #5 has a slightly softer action compared with the other XO Graphene rods. The action can still be described as medium fast but in the softer spectrum.

NEW

- Medium fast action
- Unsanded & unpainted blank for the best action
- Graphene is the strongest tested material in the world
- Novel reel seat design
- Up-locking precision machined aluminium reel seat on #5-#7
- AAAA Portuguese cork with rubber cork reinforcements
- Patented single leg REC nickel titanium alloy guides
- Titanium stripping guides from American Tackle Co.
- Supplied in a custom aluminium tube with engraved metal end caps together with a cloth bag

NEW KID ON MANIAC BLOCK!  
SOME LIKE IT SOFT.  
SOME LIKE IT FAST.

### RIVERMANIAC NEW

Rivermaniac rod series consists of 9 foot rods which are designed as a true all-round fly rods for river fishing. Anglers can choose between two actions whether they prefer a medium action which is perfect for roll- and speycasting and soft presentation or a fast action which is perfect for long casts and pushing tight loops in to a head wind.

- Medium and Fast action rods
- 4-piece rods
- Half wells in #5 weight and lighter
- Small half wells with a fighting butt in 9' #6

## STILLMANIAC

Extremely fast action especially made for stillwater fishing. These rods were designed together with our competition anglers and will excel with our Stillmaniac fly line range.

The **9'9" #6** is a fast rod but a touch more sensitive than the 10' #7. This smallest Stillmaniac is made especially for fishing closer to the surface with different intermediate lines or even the floater.

- Fast action
- Slate blue blanks with orange markings
- Novel reel seat design
- Small half wells with a fighting butt

The **9'9" #7** is a true do-it-all Stillwater rod. Action wise it is similar to the 9'9" #6 which means it bends just a tad bit lower in the blank compared to the ultra-fast 10' #7.

Both the **10' #7** and **#8** are extremely fast and powerful rods. These ten footers are made with long casts and deeper sinking lines in mind.

## NYMPHMANIAC

Nymphmaniac rods have been designed together with some of the best competition anglers in Europe including Jarkko Suominen, Cato Monsen, Jan Kubala and David Ferreras. They are designed especially for modern nymph fishing techniques. Nymphmaniac meets the requirements of the most demanding anglers in a reasonable price range. Everything on these rods is built with the intended purpose in mind. These have been designed to be as light and as easy to handle as possible. The blank dampens immediately after the stop when casting which is extremely important to sustain proper contact and a feel for light nymphs. New and modern nymph rods have enough power in the tip so hooking a fish is effortless but at the same time they bend enough when a fish is making sudden movements when fighting. Also fighting a bigger fish is not a problem with the powerful butt section of the rod.

The perfect nymph fishing setup is completed with the Vision Ultra Light Nymph-line.

- Medium fast action
- Four piece rods
- Developed together with our Nymphmaniacs
- Extremely light and sensitive rods
- Four piece rods
- Small and light single leg guides
- Last guide before tip top is a small snake guide to prevent line tangling around the guide
- Length measurers on the handle and blank: 20cm, 30cm, 40cm and 50cm
- 11' #2 and #3 have a down locking reel seat and small green EVA fighting butt
- Sanded unpainted blanks with green markings
- Grey round cordura tube

- Novel down-locking precision machined aluminium reel seat design
- Graphene is the strongest tested material in the world
- High quality Portuguese AAAA cork with rubber cork reinforcements
- Patented double leg REC nickel titanium alloy snake guides
- New patented REC Cerecoil nickel titanium stripping and REC snake guides
- Aluminium tube with engraved metal end caps and a cloth bag
- Designed and developed in Finland

### HERO

Being a hero on the water doesn't mean you have to break the bank. These affordable medium fast action rods have features for beginners as well as serious competition anglers. All of the rods are fine tuned for the type of fishing they are most likely used at. Whether you want to be a Super Hero on many types of waters, a Nymphing Hero or rule on Stillwaters these rods have the actions and components for the job.

- Medium fast action
- Four piece rods
- Vivid Yellow blanks with black markings
- Half wells handle in lighter models
- Full wells handle with a fighting butt in the heavier models
- Yellow round cordura tube

### HERO DH

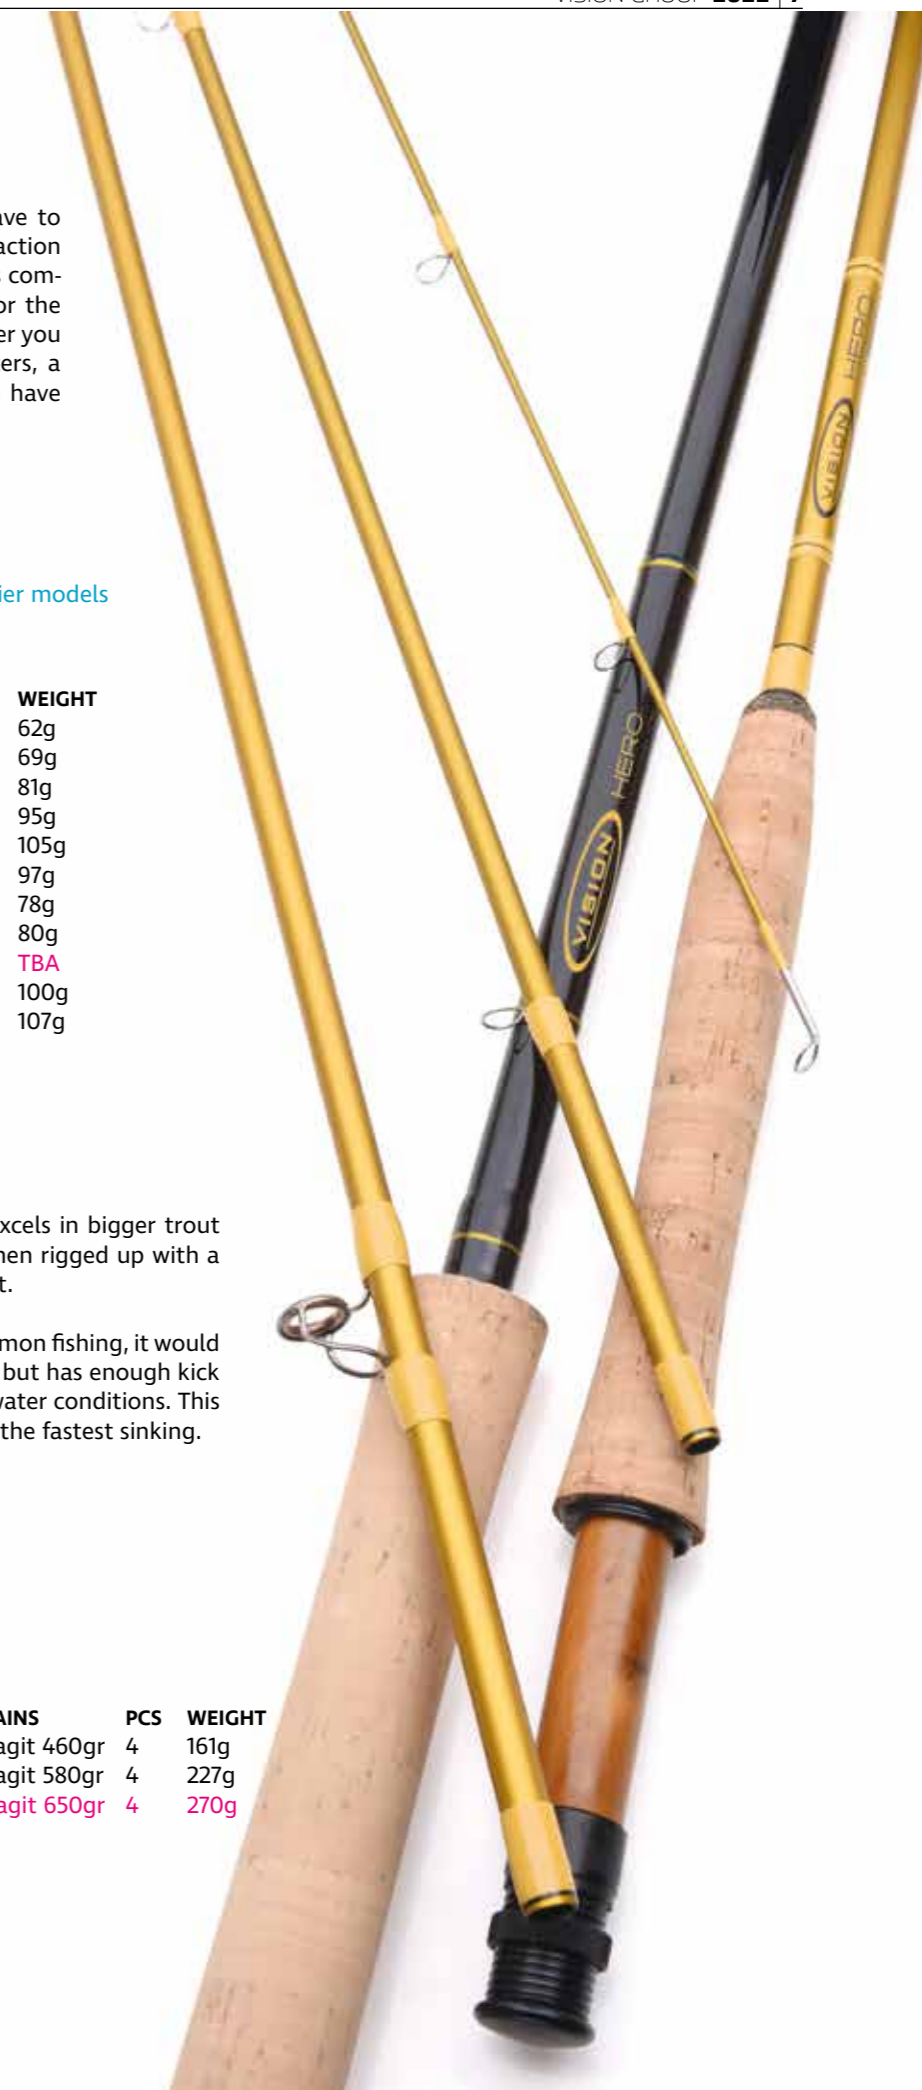

**SWITCH HERO** is a true all round switch rod. It excels in bigger trout rivers as well as in mid-sized salmon rivers and when rigged up with a Hybrid line it is super easy and comfortable to cast.

**SALMON HERO** If you had to choose one rod for salmon fishing, it would be the 13'7" #8 weight. It is handy in smaller rivers but has enough kick in the butt to be used even in big rivers and high water conditions. This rod handles all type of lines, from a full floater to the fastest sinking.

- Medium fast action
- Light and sensitive
- Four piece rods
- High-modulus low resin Korean graphite
- Black blanks with yellow markings
- Hard chrome single leg guides on Switch
- Hard chrome snake guides on Salmon

NEW

BEING A HERO DOESN'T MEAN YOU HAVE TO SAVE THE GOTHAM CITY OR EVEN SING LIKE ENRIQUE IGLESIAS DID IN 2000. THESE OUTFITS ARE MADE FOR EVERY ANGLER FROM BEGINNERS TO LEGENDARY EAGLES SO IT WOULD BE AS EASY AS POSSIBLE TO BE A HERO FOR EVERYONE OF US.

### HERO SALMON OUTFIT NEW

A true high-quality ready-to-go double hand set. The Hero Salmon rod is a 4-piece medium fast action rod with a non-sanded, painted blank. The reel is our modern die cast Hero reel and the line is our Hybrid interchangeable tip flyline with a floating tip and a 15 foot tapered leader. The Hybrid line on the set has been chosen so that it is ridiculously easy to cast. There is 150metres of 30lb backing on the reel so the set covers most salmon fishing situations and if conditions require, you can easily change the tip to a faster sinking one. The set is packed into an easy-to-use protective cordura tube with a reel pouch. Available in 13'7" #8 and 14'7" #9 versions.

- Medium fast action four piece Hero Salmon rod
- Non-sanded, painted blanks
- Modern die cast Hero salmon reel
- Hybrid line with a floating tip
- 30lb backing and a tapered 15' leader
- All pre-spooled and ready for action
- Comes in a cordura tube with a reel pouch

VHEK4149	14'7"	#9	4

### HERO 911 NEW

SALMON This reel has a similar look to the smaller ones, but it has eaten a different brake system. As this reel will face bigger fish and harsher conditions, it features more powerful and waterproof brake system. The brake itself consists again of carbon and stainless steel giving us a smooth, reliable and powerful brake. Everything is sealed behind O-rings to keep the water and dirt out. The frame has a full body rim so you can use thin running lines without fear of unwanted jams. The reel's capacity is big enough for heavy Hybrid lines so you can rig this with any double hander.

- Large arbour
- CNC machined die cast frame & spool
- Carbon & stainless steel disc brake
- Easy retrieve change

EITHER FOR SUNDAY PIKE FISHING OR COMPETITIVE ANGLING ON LAKE SESSIONS XLV STILLMANIAC IN #7-8 IS YOUR TRUSTED COMPANION.

### XO 56 BLACK NEW COLOR

A premium reel requires a world-class brake, plenty of line capacity, a light but still solid construction and last but definitely not least a unique design to clearly separate it from all the other reels on the market. Those were our main targets with XO fly reels.

- Large arbour
- Sealed disc brake on 5-6
- Built in counter balance
- SKF bearing grease

### Ö 79 NEW SIZE

These are more traditional, mid arbour reels. They are more compact in size but still hold good amount of backing with modern full-length fly lines. Ö reels are light in weight especially when compared to their capacity so if you're looking for a light set, this could be your choice for a reel. The fully adjustable disc brake is smooth and offers plenty of power. The size 79 is a great choice for trout spey and switch rods.

### XLV STILLMANIAC NEW

XLV SWITCH ran through the anodizing line and came out grey with black details. The perfect colour combination for our Custom range rods. The Switch is the perfect choice for modern switch rods. With its capacity it takes basically any switch line, no matter if it is a full line or a shooting head system. The full body rim is there for the ones who like thin monofilament type running lines and it also adds strength to the reel for the moments when you fight big fish.

The weight of the reel is matched to balance the Switch rods of 11' – 12'6" in length perfectly. The Switch has a proper disc brake package, a real large-arbour design and an EVA handle which provides a solid grip even in wet conditions. All moving parts are greased with SKF's water resistant bearing grease.

### 3 IN 1 reel case NEW

This multipurpose reel case is made out of soft neoprene material and therefore gives good protection for your reels and spare spools. The case has 3 segments which keep your reels snugly in place. This is also a great case for your shooting heads and tips. CODE: VRC31

WHEN IT COMES TO FLY LINES WE END UP TALKING ABOUT FEELINGS. AND WHEN CASTING A NICE LINE YOU FEEL GOOD, RIGHT? THAT'S WHERE THE VISION'S NEW FEEL LINE CAME FROM.

### FEEL 115 NEW

Feel 115 has a 11.5m head and it is designed as a true all-round fly line. It has enough power in the front taper to cast streamers and long leaders for dry fly fishing. The running line is white and the head is 2 coloured with a brighter green main body for good visibility for the angler and a dark olive tip for a stealthy approach on clear waters. The Feel 115 lays extremely straight on the surface which ensures great contact and feel for the flies. The line has small loops on both ends for attaching backing and leader. The line weight is clearly printed on the front loop.

GETTING TIRED OF SWITCHING LINES AND SETS DURING THE FISHING SESSION? NO NEED FOR IT ANYMORE.

### NYMPHMANIAC NEW

Nymphmaniac fly line has a unique design that is aimed at technical fishing both with nymphs and dries. It has a super long and thin front taper which enables efficient Euro nymphing even in long distance. Because of the 8 metre light and thin front taper with a 6 metre Nymphing Zone™ the line won't sag like a traditional fly line when nymphing. This ensures the angler can achieve a perfect drift and maintain good contact for detecting strikes.

There is enough weight in the back part of the line so you can change to dry fly fishing quickly because the line can be used as a traditional line. Thanks to the thin and long front taper a soft presentation is guaranteed with dry flies. The line has extra small loops on both ends for attaching to the backing and leader. Phthalate free.

### MERI NEW

Meri is a series of lines designed for coastal fishing. It has a 10m head and a total length of 33m. The Meri series consists of several densities of lines to cover all the needs of coastal anglers. Float to SloMo tip (3m tip) is perfect for fishing shallow and cold water. The SloMo (10m) version is the perfect all-round coastal line with its floating running line. Fast Inter is the go-to line for deeper banks and fishing from the boat. Fast Inter to S3 (4m tip) tip is a great choice for fast retrieve, windy conditions and boat fishing.

Meri has a thin and durable DuraSlim™ coating. DuraSlim™ enables us to manufacture a line with thinner running line than before without sacrificing durability. The low stretch core helps you to feel the takes and it also transfers casting energy far more efficiently than traditional cores. The ready made loops on both ends make it easy to attach to the backing and leader. Phthalate free.

- Thin and durable DuraSlim™ coating
- Low stretch core
- Small loops on both ends
- Clear markings of the line weight on the tip loop

### ATTACK DT NEW

A traditional double taper line for super sensitive presentation. Sky blue colour is visible for fisherman but same time it blends against the sky in the eyes of fish. It is slick and high floating, and dressed with good turnover ability to serve both beginners and advanced fishermen. Due to double taper profile this line is very accurate, it also casts slower and lands softer, making this ideal line for dry fly and small nymph fishing.

### TIPPET SPOOL HOLDER NEW

Tippet spool holder holds your tippets in place, allowing the spools to rotate for easy use. With the quick clip you can attach it easily to your waders, vest or fishing bag. **CODE: VTSH**

## HOPPER

Affordable great looking waders with high-end waders' functionalities. They feel comfortable due to their lightweight construction and material selection. The large front pocket provides plenty of space for accessories. Incorporates all the normal goodies such as matching colour belt and braces, built-in gravel guards, drying loops etc.

### SMALL SOCK

The proven entry level wader has now smaller sock options available. These have socks which fit EU 36 – 38 size.

- Lightweight 4-layer construction
- Waterproof and breathable F3™ fabric
- Curved NoSeam™ cut for perfect fit
- A large pocket with three sections laminated inside with a water resistant YKK® AquaGuard® zipper in front
- Matching colour belt and braces
- D-rings & accessory loops
- Traditional flip pocket with a zipper
- Built-in gravel guards
- Neoprene feet with left and right side design
- Drying loops

## NEW SIZES

## SCOUT 2.0 STRIP

Scout waders have been highly respected among keen fishermen. For the ones who like more simple and lighter waders we made the Strip version. We removed the fully waterproof zipper and made a simpler, stretchy front pocket. Inside the front pocket we added our removable Waterproof Pouch. Inside the wader you can still find the Scout flip pocket, and as also this is removable you can switch the waterproof pouch and flip pocket's place if wanted so. The fit and cut is same as on other Scouts but as the aim was to make a lighter wader we made it all the way from the lighter upper fabric. Obviously, this lighter fabric enhances the high breathability even more. This is the active fisherman's dream wader.

- Latest fabric featuring 37.5° Technology
- Stretchable chest pocket with removable waterproof pouch
- Removable multifunctional flip pocket
- Seam optimization secured with our new E-Tape
- Lighter fabric all the way for extra breathability and lightness
- Curved NoSeam™ cut for perfect fit
- Matching colour belt and braces
- D-rings and drying loops
- Built-in gravel guards
- Ultimate comfort

# SCOUT MERINO BAMBOO

HAVE YOU EVER FELT SO COMFORTABLE?

## SCOUT HOODIE NEW

This technical hoodie features relaxed fit and a hood which can be used over a cap. It is made from a mixture of merino wool, bamboo and spandex. Thanks to these materials it is highly sweat absorbent, pulling moisture from your skin evaporating it or moving it to the next layers. This function keeps you dry. The fabric is woven so that it interlocks air and thanks to merino wool's warm characteristics this is a great layer in cooler conditions. As both bamboo and merino wool fibres are like silk for softness, this shirt feels super soft. Thanks to bamboo's and merino wool's antibacterial features it keeps you feeling fresher and odour free for longer. Bamboo is one of the fastest growing plants in the world making it one of the most sustainable sources for textile fibre.

The Bug treatment keeps the annoying buzzing friends away. The anti-mosquito treatment is based on permethrin and it lasts on the garment its expected life span. It is not harmful for the user and it prevents insect bites through the fabric by killing the insect that contacts the fabric.

The merino wool which is used in this garment is mulesing free.

- Fabric weight 270g/m2
- 40% merino wool, 56,5% bamboo, 3,5% spandex

NEW COLORS

## BAMBOO BUG & UV

This technical hoodie is great on your tropical travel trips. It features a relaxed fit and a hood which can be used over a cap. It is made from a mixture of bamboo & polyester with a UPF 50 treatment. Thanks to these materials it is highly sweat absorbent, pulling moisture from your skin evaporating it or moving it to the next layers. This function keeps you dry. The fabric is woven so that it interlocks air and therefore this is a great first layer in cooler conditions, but at the same time it keeps you cool on hot summer days.

As bamboo fibres are like silk for softness, this shirt feels super soft. Thanks to bamboo's antibacterial features it keeps you feeling fresher and odour free for longer. Bamboo is one of the fastest growing plants in the world making it one of the most sustainable sources for textile fibre.

## NEW COLOR

### AQUA HANDLES

A great all-round bag for active fisherman. Enables you to have the most needed fly boxes, tippet spools, line clippers etc. around your waist for quick use. The adjustable waist belt has small pockets which have in built bottle / accessory pockets which you can pull out only when needed, keeping the bag sleek and simple otherwise. The smaller water resistant outside pocket keeps your tippet spools and leaders easily available. This bag is waterproof **IF AND ONLY IF** closed well and securely.

CODE	SIZE
V5310P	29 x 12 x 18cm

### AQUA SLING

Aqua Sling gives you freedom to fish. It is totally out of your way until you need it and then with just one quick move you have full access to two compartment bag. Both compartments have inside pocket leafs with zipper pockets for smaller items. Main compartments are big enough for water bottles, several fly boxes, cameras etc. With YKK®'s highly water resistant AquaGuard® zippers it keeps your gear dry even in bad weather.

CODE	SIZE
V5312P	30 x 43 x 15cm

### AQUA DAY PACK

Aqua Day Pack is a totally waterproof backpack for your day trip to a fishing destination. It has a thinner and softer material than in the original previous generation. It has inner and outer mesh pockets for smaller items and an elastic nylon string outside. You can easily expand this bag by attaching our Love Handles, Mycket Bra or Mini Bra to the shoulder straps' D-rings. Waterproof roll-down closing with quick-release buckles for easy use. This bag is waterproof **IF AND ONLY IF** closed well and securely.

CODE	SIZE
V5308P	50 x 29 x 17cm

### AQUA WEEKEND PACK

Aqua Weekend Pack has a waterproof main compartment and a big water resistant zipper pocket in front. This backpack is perfect for your longer trips to a fishing destination. It is light in weight compared to its size and comfortable to carry thanks to a sturdy carry system with a waist belt. It has inner and outer mesh pockets for smaller items and a big water resistant zipper pocket and an elastic nylon string outside. On both sides there are mesh pockets and multiple accessory straps for your rod tubes, water bottles or other accessories. You can easily expand this bag by attaching our Love Handles, Mycket Bra or Mini Bra to the shoulder straps' D-rings. Waterproof roll-down closing with quick-release buckles for easy use. This bag's main compartment is waterproof **IF AND ONLY IF** closed well and securely.

CODE	SIZE
V5313P	63 x 38 x 33cm

### CAPU NEW

Capu jacket has slightly snugger fit from our Caddis jacket. The chest pockets are roomy and the hand warmer pockets are cleverly positioned a bit lower so the boxes etc. inside the chest pockets are not on the way when you want to rest your hand in the pockets. The hood has quick and easy adjustments for perfect fit even in the worst conditions. The neoprene cuffs on wrists keep the water outside if tightened well.

- Waterproof and breathable F4 fabric
- YKK® AquaGuard® VISLON® main zipper
- Strongly curved sleeves with incut cuffs
- Outside chest pockets with YKK AquaGuard® water resistant zippers and D-rings inside the pockets
- Two hand warmer pockets
- Sunglass wipe on a cord clipped in to the D-ring of the left chest pocket
- Oversized collar for hard core weather
- Fully adjustable hood
- Adjustable Velcro wrist cuffs
- Adjustable hem drawstring seals out bad weather

CODE	SIZES
V6435	S - XXL

### PUPA NEW COLOR

The rusty orange Pupa jacket features the fit used in Opas, Kust and Lohi jackets so if you are upgrading to a newer model you'll find familiar fit. The Pupa jacket has curved sleeves for longer casting moves and a roomy hood with 2 – way adjustments. The water-resistant zippers are trusty YKKs and the main fabric is a nice and soft 3 – layer fabric. The spacious chest pockets take a couple of fly boxes each and the inside pocket is great for smaller items.

- Waterproof and breathable F4 fabric
- YKK® AquaGuard® VISLON® main zipper
- Strongly curved sleeves with incut cuffs
- Two outside chest pockets with YKK AquaGuard® water resistant zippers and D-rings inside the pockets
- Two hand warmer pockets
- A chest pocket inside the jacket with pass through for headsets
- Sunglass wipe on a cord clipped in to the D-ring of the left chest pocket
- Oversized fleece lined collar for hard core weather
- Fully adjustable hood
- Adjustable Velcro wrist cuffs
- Adjustable hem drawstring seals out bad weather

**SIZES** S – XXL

### VECTOR NEW COLOR

This traditional wading jacket has big barrel pockets on chest with easy flap openings and one napoleon type pocket next to the main zipper. The double storm flap keeps the rain out of the zipper and the adjustable wrist cuffs can be tightened to keep the water out. The military green colour helps you to blend into the background.

- Waterproof & breathable F3.5 fabric
- 3 – layer construction for high breathability & quick drying
- High quality YKK® zippers
- One exterior napoleon pocket with a zipper
- 2 roomy barrel pockets
- Micro fibre lined hand warmer pockets
- Adjustable hood
- 2 nylon loops for forceps
- Adjustable wrist cuff

**NALLE FLEECE**

**NEW NALLE HAT** is a warm fleece hat with a comfortable micro fleece lining. The hat covers the user's ears and neck. The standard fleece is well breathing and if it happens to get wet it dries quickly. One size fits most heads.

CODE	MODEL
V5027	Nalle hat
V5028	Nalle mask

**NEW NALLE MASK** When the weather turns nasty, the Nalle mask gives you the best possible cover. It is basically a hood with a peak and a face mask and the long collar drops inside your jacket, keeping your neck covered. The standard fleece is well breathing and if it happens to get wet it dries quickly. One size fits most heads.

**POLARFLITE**

Our Polarflite shades includes a wide collection of frames with Actif tri-acetate cellulose lenses. They give 100% protection from UVA-, UVB- and UVC light. They effectively block both visible light and the light reflected from water surface reducing the aligned, partially polarized glare. They are finished with hardcoat scratch-resistant surface. These lenses will not absorb haze and will stay constant with a low haze value of 0,4%. A perfect choice for all-round shades. These standard polarized plastic lenses have all the optical qualities needed for fishing. They are also very light. The 2by4 is designed to be worn with the glasses. Pouch included. Made in France.

**MIRRORFLITE**

On top of looking good the Mirrorflite series offers a bit of extra protection from the sun with the mirror coating reflecting more sun rays away from the user's eyes. All Mirrorflite models come with a hard protective case. Made in France.

**PHOTOFLITE**

Photochromic lenses are the best the all-round option and work in almost every condition from low light overgrown rivers to bright sunshine. Photochromic lenses darken on exposure to UV radiation. Photoflite series lenses start very light and darken very linearly when UV light is increased.

NOTE: Photochromic lenses are not a good option for driving a car as the UV light does not penetrate the car windshield and lenses will not darken in bright sunlight.
